This Certificate Is Presented To

John Doe

Has Successfully Completed the Training
" Data Analytics Bootcamp "

Chief Executive

Mentor

Upon completion of this Bootcamp Program, you will receive the certificate from **PivotSkool** in the Data Analytics courses.

This certificate will testify to your skills as an expert in Data Analytics.

WHAT OUR
LEARNERS SAY

"Exceeded my expectations! Learned valuable skills in Excel, Python, SQL, and PowerBI. The mentorship and career guidance helped me land a senior data analytics role."

Joseph Winger
Senior Data Analyst

"Amazing hands-on experience. Mentorship and career guidance secured my dream job in data analytics. Thank you to the bootcamp team!"

Lina Kotler
Junior Data Analyst

"The Data Analytics Bootcamp enabled my career transition from Civil Engineer to Data Analyst. The mentorship and project support were invaluable in securing my data analyst role."

Ayush Shetty
Data Analyst

"Highly recommended! Comprehensive curriculum, personalized learning, and rewarding career in data analytics. Invest in yourself, join the bootcamp!"

Thema Godson
Data Visualization Specialist

PivotSkool

FREQUENTLY ASKED
QUESTIONS

Are the courses taught live?

We use a combination of live and self-paced online learning. You will have the flexibility to work through most courses independently, participating in live check-ins, portfolio projects, and live instructor office hours.

Is this entirely online, or in-person?

This bootcamp is delivered entirely online, with a combination of live and independent, self paced Learning.

What are my payment options?

You should pay the full tuition upfront ($99), There is no multiple installment for Regular Bootcamp Package.

What skills and tools will I learn?

We specialize in teaching practical, job-ready analytics and business intelligence skills, including data preparation, Data Cleaning and Transformation, database design, data analysis and visualization. Our courses help you build expert- level skills with Excel, Power BI, Python and SQL, with hands-on, project-based demos and real-world case studies. You'll also learn the foundational skills you'll need to jump start your career, including project execution, strategic thinking, dashboard design, and more.

Are there any prerequisites?

Our bootcamp is specifically designed for beginners with no prior experience in this field. The only prerequisite is that you need to have a functional laptop with at least 4GB ram, an internet connection, and a thrill to learn data analysis.

PivotSkool

FREQUENTLY ASKED
QUESTIONS

Do I need specific equipment or hardware?

We'll guide you through the download and installation process for any software required for our courses (i.e. Microsoft Excel, Python, Jupyter Notebook, Power BI Desktop, PostgreSQL, etc.)

How many hours of work will this be?

The Bootcamp includes around 50 hours of learning spread across 3 months. We expect you to put in around 6 - 8 hours of work per week throughout the duration of the Bootcamp. The time commitment will be towards on demand videos, live-doubt clearing classes, assignments.

Can I talk to someone?

Of course! If you have questions about the bootcamp or would like to connect with an admissions rep on the PivotSkool team, visit our website to schedule an introductory call.

What makes the Premium bootcamp different from a regular?

In regular class, we offer live online doubt clearing sessions where you will learn the topics with a group of other students. However, in premium class, you will have a personalized learning experience. You will have one-to-one live doubt clearing sessions with our instructors until you fully understand the topics. The schedule is also flexible, so you can learn at your own pace. In addition, you will receive guidance on solving real-world project problems, one-to-one career support, and professional resume building. You will also receive preparation for job interviews including MOCK interviews with industry experts.
